## SHEILA SHINE

Re-invents quality you can see.

The world's finest stainless steel polish and surface preservative - Sheila Shine does all the work.

It polishes and protects stainless steel, chrome, aluminium, brass, formica, porcelain, fibreglass, enamel and plastics.

Once again chemistry has produced a product so outstanding and so different as to revolutionise the cleaning and polishing of your stainless steel. The Sheila Shine process requires no rubbing or polishing. It is so easy, so simple that it actually makes cleaning a pleasure, with unbelievable results. Sheila Shine prevents liquid penetration, eliminates streaking and resists finger marks.

**“Cleans, polishes and protects  
all types of stainless steel fixtures and fittings  
in one simple operation”**
